Engineer Data

Agile & Scrum

1 achievement

Connect the parts of your system

The work collected under “Agile & Scrum” shows one part of a working system. We can help connect that part to the rest of your operation. Rules and checks that catch bad data on the way in, and a clear answer to who owns which figure and where it came from.

Find a comparable challenge

Follow an example that resembles your situation. Its review describes the decisions behind the result, beyond the technology label. One infrastructure plan for 14 departments — 14 research departments on one infrastructure plan

Gathered and analyzed business requirements

Gathered and analyzed business requirements to translate into actionable features and user stories aligned with data governance standards.

Focus the engineering effort

Bring a representative dataset, the questions it must answer and the current bottleneck. We can agree how to measure quality, throughput and recovery.
