Project Management

3 achievements

Connect the parts of your system

The work collected under “Project Management” shows one part of a working system. We can help connect that part to the rest of your operation. Somebody accountable for scope, dates and the awkward conversations, so a project has one owner instead of five opinions.

Find a comparable challenge

Follow an example that resembles your situation. Its review describes the decisions behind the result, beyond the technology label. Gathered and analyzed business requirements — business requirements turned into buildable features

Gathered and analyzed business requirements Get in touch →

Gathered and analyzed business requirements

Gathered and analyzed business requirements to translate into actionable features and user stories aligned with data governance standards.

Delivered analysis and regular progress reports

Delivered analysis and regular progress reports to the CEO, translating engineering KPIs and delivery status into decisions.

Designed a time-management and reporting system

Designed a time-management and reporting system that remained in production use for years without significant modification.

Focus the engineering effort

Bring the decision, the people affected and the options already considered. We can make the tradeoffs explicit and leave a documented recommendation.
